# marantz®

## SR5006 AV RECEIVER

The SR5006 also features the famous Marantz circular display, and it has the same networking facilities as his big brother for audio streaming, Internet radio, and AirPlay from any iDevice. It also includes decoders for standard audio as well as for Dolby TrueHD and DTS-HD Master Audio. And, it comes with no less than six HDMI 1.4 inputs – making it immediately ready for 3D video and ARC (Audio Return Channel) from ARC-compatible TV sets. It easily handles the most demanding of scenes in action films, as well as offering excellent-quality music playback, thanks to the latest Marantz audio technologies. To ensure you get the best possible audio with compressed files from iPod via USB, the SR5006 offers 7x 100W rms and incorporates the M-DAX2 – Marantz Dynamic Expander version2. This neat little addition also optimises the quality of MP3 files from either CD or the optional Bluetooth Receiver RX101. Everything sounds clearer, more detailed, and more alive. To finish off, the SR5006 comes with a whole range of convenience features such as: Setup Wizard, the "auto calibration" with Audyssey MultiEQ and Dynamic Volume Control; "Multi-Room" with multi-source flexibility; "video-off" mode to ensure you enjoy your music and your movies in true dynamic Marantz style. It also has the specially developed Marantz Wizz App for bi-directional control via any iDevice. All of which makes the SR5006 a true combination of style, power and ease.

## Main Features

- 7x 100 Watts 8 ohms RMS
- DLNA1.5 Network audio streaming and Internet radio
- AirPlay installed
- Audyssey MultEQ XT, Dynamic EQ and Dynamic Volume
- 6in / 1out HDMI 1.4 (3D/ARC/CEC)
- iPod / iPhone compatible USB input
- Transparent GUI multilingual Setup Wizard
- Multi room/Multi source
- Learnable Remote Control
