SR6012

9.2 CHANNEL FULL 4K NETWORK AV RECEIVER WITH HEOS MUSIC STREAMING

The SR6012 offers a big step up from the SR5012, with nine channels of even more powerful amplification, 11.2-channel processing and preouts, and extended custom installation features including Crestron Connected compatibility. Selected discrete components including Marantz HDAMs ensure superb sonic performance with both music and movies. As standard the SR6012 can drive 5.1.4 or 7.1.2 speaker configurations, delivering all the immersive 3D sound of Dolby Atmos and DTS:X, and its 11.2-channel processing allows 7.1.4-channel working with the addition of an extra two-channel amplifier. An additional HDMI output allows audio and video to be sent to a second zone, as well as two displays – such as a TV and projector – in the main room.
