60th Anniversary

SR5008

NETWORK AV RECEIVER

The latest current feedback topology and Marantz own HDAMs are also central to the SR5008. These technologies guarantee both power and detail in your surround sound experience. It also has the networking facilities for gapless HD audio streaming from PC and Android as well as Internet radio, online services and AirPlay from your iPhone, iPad or iPod. And, it includes decoders for standard audio as well as for Dolby TrueHD and DTS-HD Master Audio.

The SR5008 also supports Apple lossless, Gapless, FLAC HD 192/24 so you get all the metadata you want. It comes with no less than six HDMI inputs of which one is on the front – making it immediately ready for 3D /4k video and ARC (Audio Return Channel) from ARC-compatible TV sets. Lower resolution video can be up-scaled to 4k too. It easily handles the most demanding of scenes in action films, as well as offering excellent-quality music playback - thanks to the latest Marantz audio technologies and 180W from the 7 amplifiers. Everything sounds clear, detailed, and alive with this set.

To finish off, the SR5008 comes with a whole range of convenience features such as: Setup Assistant, "auto calibration" with Audyssey MultiEQ XT and Dynamic Volume Control; "Multi-Room" with multi-source flexibility; and "video-off" mode to ensure that you enjoy your music and movies in true dynamic Marantz style. It also has the specially developed Marantz Remote App for iPhone and Android devices. All of which makes the SR5008 a true combination of style, power and ease.
