The new SR6010 builds on last year's SR6009 but is again a giant step beyond its predecessor. Seven discrete amplifier channels, each with 185W of pure power, and a 9.2ch processing capability with 13.2ch pre-outs offer extreme versatility for the home cinema enthusiast. With the latest decoding technologies Dolby Atmos and DTS:X (via update later in 2015) you will be flooded with nothing less than a new surround sound sensation. With 8 HDMI inputs (including 1 conveniently located on the front panel) and 2 HDMI outputs, the SR6010 features an advanced video processing system. Prepared for the future, it is equipped to handle 4K Ultra HD full rate 60 Hz content, 4:4:4 Pure Color sub-sampling and 21:9 aspect ratio pass-through. It's also HDCP 2.2 compliant, which is a requirement for 4K Ultra HD copy-protected content. What's more, because we have also upgraded to Audyssey MultEQ XT32 / LFC Pro you get an even more accurate calibration of the speaker to guarantee that every seat in the room is a 'sweet spot' for audio. Like every new Marantz AV Receiver this year, the SR6010 has WiFi and Bluetooth built-in and it supports Apple lossless, Gapless, FLAC HD 192/24 and even DSD and AIFF network streaming. Spotify Connect and AirPlay audio streaming are on board too. But we haven't changed everything. We've kept the staggering impact of audio quality, which is quite simply an intoxicating mix of effort-less power, amazing detail and sensational depth: all thanks to the use of current feedback technology, HDAM pre-amplification and, of course, the 185W for each channel. And to get it all up and running effortlessly, there's a handy Setup Assistant.
