Hard Disc Music Server DH9300

**because music matters**

Music Is Served!

Introducing the freshest idea in music storage, retrieval and playback. The Marantz DH9300 Music Server has the ability to play 4 different kinds of music in up to 4 different zones (all at the same time). Because of its massive 80 GB military grade hard drive, you can store over 1200 hours of music that you've recorded from the high quality built in CD player. Direct internet access allows downloading of all your favorite music and artist information, and that's just the beginning. The DH9300 is really user friendly making it a breeze to access, catalog and retrieve your most prized music collection. Classical, Jazz, Rock, R&B or Pop…now everyone in your household can listen to their favorite tunes simultaneously. For personalized music service, check out the DH9300 today at an authorized Marantz dealer near you.

Multiple Music for Multiple Rooms

The DH9300 Hard Disc Music Server is the first real solution that allows everyone in your home the ability to individually listen to their favorite choice of music, all at the same time! It can deliver your entire music collection to multiple rooms, up to four zones, at the touch of a button.

Recording Made Easy

There's no need to connect your DH9300 to a PC to record your favorite CDs. The DH9300 includes a professional grade CD player that enables recording in either an extremely high quality uncompressed audio signal (up to 115 hours) and high capacity compressed audio signal (over 1200 hours), or any option in between.

Direct Access to the "World's Largest Database"

Through the DH9300 (without having to use a PC), you have direct access to the Internet which is the world's largest music database. Once there, you can download music content, information about artists, album titles and tracks of songs. Direct access makes updating your personal music database easier, faster and more convenient.

Intuitive Operation

Intuitive operation is made simple through the Marantz menu system. From your "easy" chair you can quickly navigate and select the desired music in seconds with the ergonomically designed remote control. The easy to read on-screen-menu can also be fed, via video signal, to any zone for complete local functionality. Many other personalized features are available as well such as individual play-lists and genre selection.

Full Compatibility

You can connect the DH9300 to your existing home entertainment system without any additional equipment because it is as simple to install as a basic CD player. The DH9300 is also compatible with the latest generation touch screen learning remote controls, such as the Marantz RC9200 and RC5200. In the future, Marantz will provide a windows application that enables these remote controls to be programmed with the album listing from your Marantz DH9300. This software can run on a PC or laptop connected to the DH9300 via Ethernet or RS232C communication port which is conveniently located on the back panel along with a host of other useful connections. To find out how you can have "music for everyone" contact you local Marantz dealer.
